Central Resource Directory Form

AEIS has in place a statewide resource directory to assist families and community providers in locating resources for infants and toddlers with developmental delays. This directory includes public and private service providers, early intervention professionals, family support organizations and other groups that provide services to infants and toddlers with disabilities and their families in Alabama.

The AEIS directory includes information on the nature and scope of services available, the addresses and telephone numbers for the organizations, programs or persons listed, and other pertinent information. Inclusion in the directory does not imply an endorsement by the Alabama Department of Rehabilitation Services or its affiliated early intervention programs, but the directory is an important tool for families and others to find out more about resources in their own community.

If you are interested in being listed as a resource for families of young children with disabilities, please complete the information on the CRD form. Please mail, email or FAX the information to Tonya Gandy, AEIS Child Find Specialist. You may also contact Tonya if you are interested in additional information about the AEIS Central Resource Directory.

Knowing about *all* available resources is important to families and providers to best meet the needs of our infants and toddlers. You can help us compile the most comprehensive directory possible by making copies of the CRD form and sharing with other resources in your area.

The AEIS Central Resource Directory will be available from the website of Alabama's Early Intervention System, Department of Rehabilitation Services at rehab.alabama.gov/services/ei.

Information about the CRD will also be available by contacting Tonya Gandy or other state or regional early intervention staff.
