

Adaptive Driver Training (ADT)

Menu of Services

ADT Evaluation – For clients who have a permit and need to be evaluated to establish if they meet the legal, physical, and cognitive pre-requisites of driving. This evaluation identifies clients who require licensure with adaptive driving equipment and/or a high-tech driver evaluation.

ADT Evaluation/Permit Training – For clients who do not have a permit and need to be evaluated to establish if they meet the legal, physical, and cognitive pre-requisites of driving.

ADT Bioptic Evaluation – For clients who need to be evaluated to establish if they meet the legal pre-requisites of driving with bioptics. (Clients should not be referred for this evaluation until they have their bioptics and have completed the low-vision training.)

ADT Bioptic Evaluation/Night – For clients who need to be evaluated to establish if they meet the legal pre-requisites of night driving with bioptics. (Clients should not be referred until they have completed two years of bioptic licensure without any at-fault accidents. [Must meet these criteria to qualify for night driving.]

ADT Bioptic Evaluation/Retraining-After Suspension – For clients who need to be re-evaluated and retrained for driving with bioptics after suspension by the Alabama Law Enforcement Agency (ALEA) for an at-fault accident.

ADT Evaluation/Low-Vision – For clients with low vision who need to be evaluated to establish if they meet the legal, physical, and cognitive pre-requisites of driving. (not bioptics)

ADT Evaluation/Hearing Loss – For clients with hearing loss who need to be evaluated to establish if they meet the legal, physical, and cognitive pre-requisites of driving.

ADT Evaluation/Modification Repair – For clients who need to be evaluated for repair of existing modifications. (Not for those clients who need new equipment prescriptions or recommendations.)

ADT Evaluation/Vehicle Modification – For clients who are already a licensed driver with adaptive driving equipment and who need to be evaluated for new equipment prescriptions or recommendations.

The following services are accessed only after one of the above evaluations has been completed and ADT has established a plan. ADT will place clients in these services automatically after the evaluation is completed to continue and complete the initial contract service request.
