WHAT TO KNOW ABOUT PARTICIPATING

Requirements and responsibilities are placed on the Participant and his/her Learning-Support Team. This section of the AP provides information about these requirements and responsibilities as well as information about the training. Please read this information thoroughly.

The SI Workshop/Mentorship is not a college-credit course. Instead, it is an AEIS-required workshop followed by a mentorship. Additionally:

- Enrollment and participation in the SI Workshop/Mentorship is limited to those individuals described under the Who Must Participate section of this AP

SI Workshop/Mentorship FY2019S1

- Enrollment and participation must be made with approval from and in coordination with the Learning-Support Team from the employing/vending AEIS-Supported EI Program
- The Learning-Support Team plays an important and key role

The SI Workshop/Mentorship is a 20-week program of study which is divided into 2 learning components:

SI Workshop (scans 12 weeks online)

SI Mentorship (scans 8 weeks on-site)

This training is designed to provide instruction that partially replicates the information presented in college/university programs of early childhood special education, but it is not the equivalent of a college degree nor a teaching certificate, does not lead to college-credit, and does not guarantee employment or vending in an AEIS-Supported program.

The SI Workshop/Mentorship must be completed within the designated time period. Once an individual begins this training, s/he is expected to follow the schedule and complete the work within the specified timeframe. Individuals should not enroll in a Session unless they know they will be able to fully participate and successfully complete it during the given timeframe. Extensions will not be given. Any work missed will result in repeating the SI Workshop/Mentorship in its entirety with a limit of 2 attempts.

Following is information about each learning component as well as the progression schedule of each learning component.

SI Workshop

The SI Workshop takes place completely online. It is organized into 12 Modules with one week spent on each Module; and, the focus is on an intense study of the three US Department of Education - Office of Special Education Programs (OSEP) Child Outcome Indicators (COIs):

- positive social-emotional skills
- acquisition and use of knowledge and skills
- using appropriate behaviors to meet needs

And, these OSEP COIs are embedded in the study of:

- IFSP development and implementation
- Weaving intervention services into a family's established routines
- Empowering parents to successfully guide and support their child's development
- Conducting interventions that support motor, cognitive, social-emotional, communication, and adaptive skills
- Making the most of natural learning opportunities in natural environments
- Working in effective teams with professionals from diverse disciplines
- Meeting the specific needs of children with all disabilities and/or risk areas, including autism, sensory disabilities, and cognitive and/or motor disabilities

The progression of study in the FY2019 Session 1 SI Workshop is as follows:

- The SI Workshop is not a self-paced study. It is an intense online learning opportunity with weekly online learning activities and open-book quizzes with due dates.
- The SI Workshop requires 4-6 hours of work each week.
- The entire SI Workshop must be successfully completed during this 12-week time period (10/1/18-1/13/19).
- To achieve successfully completion of the SI Workshop, the final overall grade of at least 80% must be earned. A final overall grade less than 80% is not recognized as a successful completion of the SI Workshop. NOTE: Grades are not rounded upward; therefore, a grade of 79.9% is not a passing grade.
- If the SI Workshop is not successfully completed during this Session, the AEIS State Office, the Participant's Learning-Support Team will be notified; and, progression to the SI Mentorship will be denied. At that point the next Session of the SI Workshop will be made available for enrollment and repeat (repeat in its entirety regardless of how far the Participant progressed in the previous Session).
- Participants will have 2 attempts to successfully complete the SI Workshop. If after 2 attempts an individual does not successfully complete it, the AEIS State Office and the Participant's Learning-Support Team will be notified; and, s/he will not proceed to the SI Mentorship resulting in not being recognized by the AEIS State Office as a Special Instructor or approved for billing of SI services within an AEIS-Supported program.

SI Mentorship

Following successful completion of the SI Workshop (defined as earning a final grade of at least 80% noting grades less than 80%, such as 79.9%, are not a passing grade), the Participant enters into an 8-week SI Mentorship. The SI Mentorship is an integral component of the SI training that provides Participants with the opportunity to demonstrate competency and mastery of SI knowledge and skills in their employing/vending Early Intervention (EI) setting. It is designed to couple with their EI employer's new employee orientation thus assist Participants in assuming the duties of a Special Instructor.

The SI Mentorship takes place completely within the AEIS-Supported EI Program in which the Participant is employed or vendors; and, all supervision, responsibility, and evaluation of the Participant is conducted by the Participant's Learning-Support Team. It is the responsibility of the Participant and his/her Learning-Support Team to arrange and complete this SI Mentorship within the designated 8-week period as well as to submit supporting documentation to the SI Workshop/Mentorship Office by the given deadline.

A Special Instruction Mentorship Evaluation Packet will be distributed to the Learning-Support Team upon the Participant's successfully completion of the SI Workshop.

As stated earlier, the Learning-Support Team serves a very important and key role in the SI Mentorship. Following are the required Qualifications and Responsibilities for each member of the Learning-Support Team.
