## *New Muscle Shoals facility better serves area children with disabilities*

MUSCLE SHOALS – Children’s Rehabilitation Service (CRS) will host an open house at its new facility in Muscle Shoals on Tuesday, Nov. 29, from 1 p.m. to 3 p.m.

At just over 5,000 square-feet, the facility at 714 State Ave. will officially open its doors with a ribbon-cutting ceremony. The new home for CRS in the Shoals area offers more clinic space for families at one of the fastest-growing locations in the state.

“We are absolutely thrilled to be in our home in the Shoals,” said CRS Office Coordinator Kimberly Wright. “Muscle Shoals CRS now serves approximately 400 children with special health care needs in six surrounding counties. Our new office was designed with these children and families in mind, and we’re pleased to provide our families an updated facility that is easily accessible so we can serve them efficiently and effectively.”

In addition to newly appointed offices, the Muscle Shoals CRS clinic features an audiology booth, a modern exam and interview room, a parent resource area and covered accessible parking to protect consumers in motorized wheelchairs from poor weather conditions.

The open house will feature tours of the facility.

Children’s Rehabilitation Service is a program of the Alabama Department of Rehabilitation Services, the state agency whose mission is to enable Alabama’s children and adults with disabilities to achieve their maximum potential.
