For all children,
*including those
with special needs,*

mealtime
is more than
a time to eat ...

The Children's Rehabilitation Service Feeding Clinic

A time for teaching children and families about overcoming feeding difficulties and how to decrease the risk of slow growth, poor nutrition, delayed development and other complications

Feeding Clinic Team

- registered dietitian
- speech-language pathologist
- occupational therapist
- registered nurse
- social worker

In cooperation with your physician or following referral from your health care provider, concerns addressed may include:

- your child's food intake and nutritional needs
- your child not developing age-appropriate feeding skills
- your child's refusal to eat and resistance to being fed
- fear of your child choking
- frustration with the time that feeding takes

If you have concerns about your child's growth and development because of feeding difficulties, contact the CRS office in your area.
