Sound ADVICE

Hearing Services

Children's Rehabilitation Service

Hearing Services

Communication is a critical skill that connects people. Through its Hearing Services, CRS gives children and youth a chance for success at home, at school, and in the community.

Newborn Hearing Screening

for follow-up to hearing screening done at the birthing center

Early detection of hearing loss is vital because it can help assure that your baby acquires the skills that are essential to success throughout life.

Testing is the only way to know if an infant has a hearing loss. If your child is referred to CRS for a follow-up newborn hearing screening, a CRS hearing specialist (called an audiologist) will test your child, explain the results, and tell you if more tests are necessary.

Hearing Assessment Clinic

- Evaluation by a pediatric audiologist
- Referral to Hearing Clinic and/or Hearing Aid Clinic as necessary

Hearing Aid Clinic

- Hearing aid evaluation and prescription
- Hearing aid and ear mold ordering
- Hearing aid orientation and fitting
- Hearing aid follow-up checks
- Hearing aid maintenance and repairs
- Ear mold replacement
- Explanation of educational options
- Consultation or technical assistance for local schools
- Referral for speech-language therapy
- Education and support for the child and family

Hearing Clinic

- Evaluation by a pediatric audiologist
- Examination by an ear, nose, and throat (ENT) physician
- Referral for specialized testing or services (i.e., CT scans, MRI, lab work, hearing impaired education, etc.)
