

How do you YAC about it?

*By participating
in the Youth Advisory Committee.*

YAC provides youth a platform to inform Children's Rehabilitation Service (CRS) and its partners of concerns faced by youth with special health care needs. YAC will develop programs to ensure that your concerns are addressed. YAC promotes the concept that every youth with special health care needs will have access to services for transition to adulthood, including adult health care, independence, and employment. YAC also provides youth with the opportunity to advise CRS on important policy and procedure changes.

Who YACs about it anyway?

- Someone who is between 15 and 25 years of age and who has a special health care need
- Culturally diverse youth representing various disabilities from various locations throughout the state
- Persons who have had experiences with or express interest in leadership and/or advocacy programs

Is this YOU?

If it is, then it is time for you to make your mark, and YAC about it today! Come join us!
