| _____ Vision Services | _____ Other Language (Specify): _____ |
| _____ Physical Therapy | _____ |
| _____ Eligibility Evaluations | _____ ALL EI Services Listed |

Other Non-EI Services Provided: _____

Alabama's Early Intervention System: Central Resource Directory (CRD)

AEIS has in place a statewide resource directory to assist families and community providers in locating resources for infants and toddlers with developmental delays. This directory includes public and private service providers, early intervention professionals, family support organizations and other groups that provide services to infants and toddlers with disabilities and their families in Alabama.

The AEIS directory includes information on the nature and scope of services available, the addresses, telephone numbers, web addresses, and email addresses (when available) for the organizations, programs or persons listed, and other pertinent information. Inclusion in the directory does not imply an endorsement by the Alabama Department of Rehabilitation Services or its affiliated early intervention programs, but the directory is an important tool for families and others to find out more about resources in their own community.

If you are interested in being listed as a resource for families of young children with disabilities, please complete the information on the CRD form. Be sure to include any words that would make it easier for a user to find your program when searching the system. If you include an email address, users will click on a "Request Information" link and fill out an email form with their question(s) that will go directly through our system to the email on file. The users will not be able to see the email address. If you include a web address, the program/system's name will be a link that can be clicked on to take the user to the website. Please mail, email or FAX the information to Randelle Luster, AEIS Data Manager/Child Find Director. You may also contact Randelle if you are interested in additional information about the AEIS Central Resource Directory.

Knowing about all available resources is important to families and providers to best meet the needs of our infants and toddlers. You can help us compile the most comprehensive directory possible by sharing the CRD form and this information sheet with other resources in your area.

The AEIS Central Resource Directory is available from the website of Alabama's Early Intervention System, Department of Rehabilitation Services at <https://rehab.alabama.gov/services/ei>.
